

SPRING/SUMMER 2019

A LETTER TO OUR WARM FRIENDS

752 MAIN ST, HOLDEN, MA 01520 *** 508-829-0044 *** www.harringtonoilinc.com

HEATING / COOLING SOLUTIONS!

MESSAGE FROM THE BROTHERS

It was an interesting winter with the temperatures alternating between mild and frigid most of the season. The lack of big snow storms was a plus for our drivers making deliveries. We never know what each winter will bring but we prepare for the worst and hope for the best.

Harrington Oil continues to expand rapidly and thanks for your help in referring your family, friends and neighbors to us. We are also expanding our services getting more into mini-split Air Conditioning installations. Attached is our Pot O' Gold coupon for anyone looking for an A/C tune-up or to upgrade their heating system or add a mini-split system to their home. Remember, we always offer Free Estimates and 0% Financing (with credit approval) for install jobs.

As always, we thank you for your loyal business and will do our best to reward your trust in us as we continue to expand and improve Harrington Oil.

Have a Safe and Happy Summer!

WHAT IS BIO FUEL?

We have been getting many questions lately about bioheat fuel. Bioheat is fuel oil blended with byproducts of food production, such as soy, canola and other vegetable oils. This gives customers the benefit from a combination of the ultra low sulfur content of oil with the clean renewable resources used in the production of bioheat. When we pick up at our wholesalers fuel terminals in Providence our fuel is blended with 4 to 5% blend of bio. We can buy up to a 20% blend at the terminal if we choose. Some dealers add even more bio into the fuel at their own racks. We have chosen the conservative approach of going with the 4-5% blend. While bioheat fuel has been around for a number of years now we are still learning about how it affects your heating system. Which is why we have chosen the conservative route.

ANNUAL TUNE-UP

Your system worked hard this winter and spring is a great time for the Annual Tune-up on your heating system. We strongly recommend you keep the maintenance up on your heating equipment and we have 3 service technicians on staff to keep your system running at peak efficiency. To schedule an appointment just give us a call at 508-829-0044.

MINI SPLITS

Harrington Oil is pleased to offer the installation of mini split air condition system. Mini Split Air conditioning systems offer a flexible way to provide cooling and heating to individual rooms. A mini-split system has two major components: the air-handling unit inside your home and the condenser unit outside your home. The "mini" relates to the size, as most units are sleek and compact in design, allowing flexibility in where you want the indoor unit placed on your wall. These ductless air conditioners are available in both single-zone and multi-zone systems. In most cases, a ductless system will save you money. These systems are smaller than a traditional forced-air system, which means they use less power. A ductless unit delivers maximum heating and cooling comfort to the rooms you select. Save with our coupon located on the back of this newsletter. Give us a call to set up a FREE estimate.

SUMMER OFFICE HOURS

SUMMER hours from April through October are Monday through Friday 7:30 am to 4:30 pm.

Phones are answered 24 hours a day by a Harrington Oil employee to handle any emergency. Please phone during normal business hours with any questions on billing or account information.

****COMING SOON****

BUDGET AND PREPAY OIL CONTRACTS

New Oil Contracts will be mailed out the end of May for the 2019/2020 heating season. These will offer options for Capped or Fixed pricing with Budget or Prepay payment options.

We highly recommend our Budget Plan which allows you to spread your heating costs over 12 monthly payments this will eliminate large oil bills in the winter months when usage is high. For most customers the Budget Plan is the easiest way to manage the cost of heating their homes. Why not make your life easier with automatic delivery on a personalized budget plan?
